LIMITATIONS

The information presented in this Engineering Evaluation/Cost Analysis (EE/CA) for the Former Waikoloa Maneuver Area and Nansay Sites, Island of Hawai'i, Hawai'i, has been provided in accordance with principles and practices generally employed in the environmental consulting profession.

Recommendations set forth in this document are based upon the following: (1) data and literature provided by government sources; (2) field investigations including geophysical mapping and ordnance and explosives (OE) sampling performed by the Earth Tech, Inc., project team; (3) results of the Ordnance and Explosives Risk Impact Assessment (OERIA); and (4) observations made and verbal information obtained during site visits. Information developed by other government agencies and independent contractors has been accepted as authentic and true as stated, unless otherwise noted.

The recommendations reflect an analysis of available information, current and projected future land uses, and professional judgment. The recommendations presented in this EE/CA Report are subject to change based upon receipt of new information regarding the potential presence or evidence of OE within the Former Waikoloa Maneuver Area and Nansay Sites. This EE/CA Report is not intended to be a decision document but should be used as a tool to assist in making knowledgeable and comprehensive decisions regarding the disposition of the Former Waikoloa Maneuver Area and Nansay Sites, Island of Hawai'i, Hawai'i.
